## Walking with Jesus

Do you ever think about that Jesus joins you for your daily walks? Last week, in a spot of Zoom church, our friend Louise, taught our family about the disciples walking to Emmaus. You can read the story in Luke 24 (or there's a fun reimagined version in the link). While walking together with Cleopas and his friend, Jesus helped them understand what was going on around them.

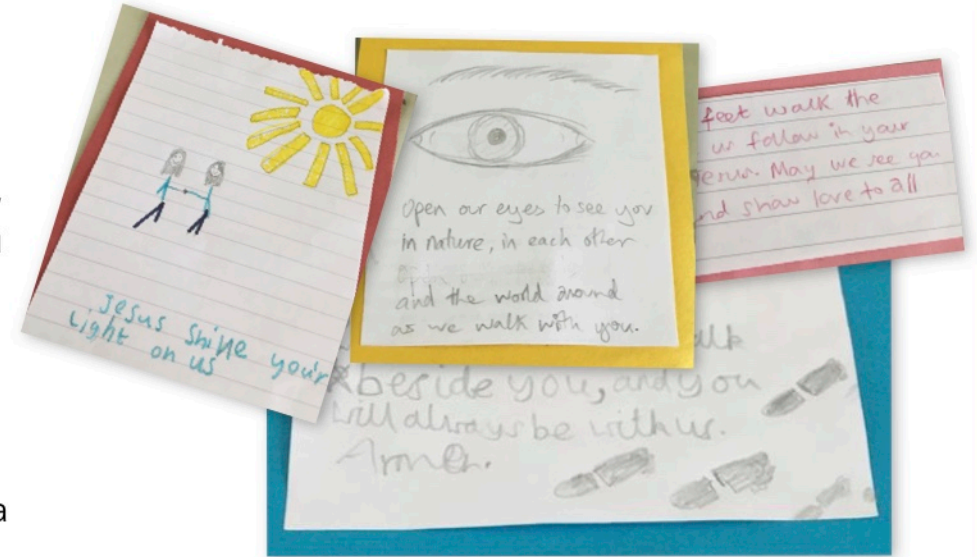

Could you be purposeful about inviting Jesus to join you for a walk today (even if it's just around your flat or garden)? If we pay attention, Jesus might help us understand what's going on around us too. Louise suggested writing a prayer each, that we could stick on the inside of our front doors and pray before we leave the house.

Could you write a prayer, present it nicely, perhaps add a drawing and stick it on your door today?

## Web link

A reimagined version of Luke 24:13-35:

<https://engageworship.org/domestic>

**"As they talked and discussed these things with each other, Jesus himself came up and walked along with them." (Luke 24:15)**

**TODAY: On another Sunday without church gatherings, pray for your church community and its needs and mission right now.**
