*Love incarnate, love divine Star and Angels give the sign
Bow to babe on bended knee the Saviour of humanity
Unto us a Child is born, He shall reign forevermore.

Thank You

In a year that has seen something on this scale impact everyone globally in a similar way and continues to do so?? We have seen people come together in adversity and we think it has given us all a greater appreciation and understanding of how it feels to be isolated.

It has been amazing to see the resilience, generosity and fellowship that has been strengthened during these tough times. For example folk helping out both our parents as older folk they had to stay isolated for a number of weeks during lockdown??

We want to thank you for praying for us and giving, so that we can play our part in the work that MAF does globally.

The virgin will conceive and give birth to a son, and they will call him Immanuel, which means God with us.

Matthew 1 v 23

Prayer Points:

For Joshua's future studies that he can find a clear pathway.

Glenn as he starts another busy year in the hangar, and more studies.

That we can get another work visa to be able to continue working here.

For little Nate as he lives out his final days and for Katie as she is feeling the strain emotionally and physically.

For Julie Anne as she goes back to work in the New Year.

Classroom with a difference: In late November Glenn had the opportunity to visit Jubilee Christian college to see where Julie Anne works. It's a little different as she and her colleagues work in a large room divided into cubicle's and from there they conduct their planning sessions, do assessments and email parents and students. The school has a large warehouse and printing facility where the re-sources are printed and stored ready to be posted to families at the end of each term. During term 4 she had a fourth day at school teaching at the day school covering Vice-Principal relief. On the 14th November Julie Anne celebrated a big birthday.

She has been able to keep up with her running this year and continues to run early on Thursday mornings with three other MAF ladies and just in the past 3 weeks 'Parkrun' has been able to start again in Atherton. Normally at this time of year the ladies of both Mareeba and Cairns would join together for a Christmas meal and fellowship together, however this year it was decided to do this separately and the Mareeba ladies had a meal and some fun games at the flight training centre.

Verse II. Son of God and Son of man
 There before the world began
 Born to suffer, born to save
 Born to raise us from the grave
 Christ the everlasting Lord
 He shall reign forevermore

Joshua. After completing his final year at high school he has been working on a local farm fruit picking mangoes. Please continue to pray for his situation for study. He would like to stay in Australia so one option for him is to enrol to do a certificate 4 or a diploma with TAFE (technical and further education training) which is the equivalent to BTEC in the U.K. This would give him a qualification which could lead to a job then he could get his own visa and attend university later. Another option is to attend University in the U.K. It's also a bit complicated but he feels that with a cert 4 or diploma this would help him to get into Uni there. He also had a big birthday on the 12th November when he turned 18!

Benjamin. He has now completed his year 11 and hopefully is ready for his final year at high school (year 12) in January. He has found himself a part-time job at Mitre10 hardware store (where Joshua used to work). It's the long summer holidays here now and Benjamin is at the age where he likes to go with friends to local creeks to swim and just 'hang out'.

Esther: She has just completed her first year at High School. As well as her sports she enjoys making things, and in the last term of the year she made this tray in her design and technologies class.

Like the boys she enjoys Youth Fellowship at church. For the last event of the year they had a special fun night travelling down to Cairns to play 'Lazor tag'. It was a great night of fun to end the year.

Glenn. It's been a busy year in the hangar and this is set to continue into 2021. Pictured below is a Cessna caravan that has just arrived from PNG for a repaint, avionics upgrade and an engine change. This due to be finished by the end of May. You may remember when we were on home assignment during the Christmas period last year it was mentioned this aircraft would be arriving early 2020 for the work, but due to the craziness of this year it has only just arrived. In January another caravan will arrive from the Arnhem land programme for some work. Also MAF U.S have asked that one of their caravans based in Indonesia, come to Mareeba for a repaint mid-next year. Glenn had planned to do an exam resit before Christmas but with an unexpected house move this didn't happen. He plans to do this in the first quarter of next year. Also in May of next year our work visa is due for renewal. The preparation for this will begin in March.
